# Integrated Control System

"SYNCRE-EYE" is a comprehensive system Suzuki has developed which "connects" various devices so that they may work together in synchronization. This innovative system will also improve the control technology of the boat by "sensing" various situations surrounding the boat and be compatible with future technology.

OPERATION SYSTEMS

SYNCHRO-EYE

# NEW SUZUKI PRECISION CONTROL (S.P.C)

## New Remote Control Box

- Integrated "SELECT" and "THROTTLE ONLY" switches
- Integrated Emergency switch (Flush Mount only)
- 1 Lever Operation : This switch allows multiple motor operation with just 1 lever(Dual top mount only)

Single Top Mount

Dual Top Mount

Flush Mount

## All New Suzuki Precision Control

Suzuki's best technology lies in the Suzuki Precision Control (S.P.C) for the Drive-By-Wire System. With the S.P.C, a computer electronically sends signals to the engine by wire, eliminating friction and making shifting easier and smoother. The S.P.C also processes and transmits commands in real-time to the actuator. This enables instant, precise throttle response for greater control and accuracy.

This year, we bring the first full model change of the S.P.C system. The new system features:

- Control of up to 6 OBM units.
- Automatic Trim available by using SMD or SMG4.
- All new designs for the Remote Control Box, Switch Panel and Control Panel.

### New Switch Panel

- New Panel types : Horizontal and Separate type panel to suit all helm layout needs
- Mounting bolts are concealed for a smooth, luxurious finish
- Easy start for multi-motor boats : Users can start all motors with 1 button/switch. Motors start in order from port to starboard

\*Emergency switch not needed if using flush mount

### New Control Panel

# EXTRA OPTION

## COUNTER SELECT CONNECTOR

### 36612-98J20-000

Applicable Model DF150AP/175AP  
DF200AP/250AP/300AP

Converts to counter rotation specification.

## Suzuki Selective Rotation

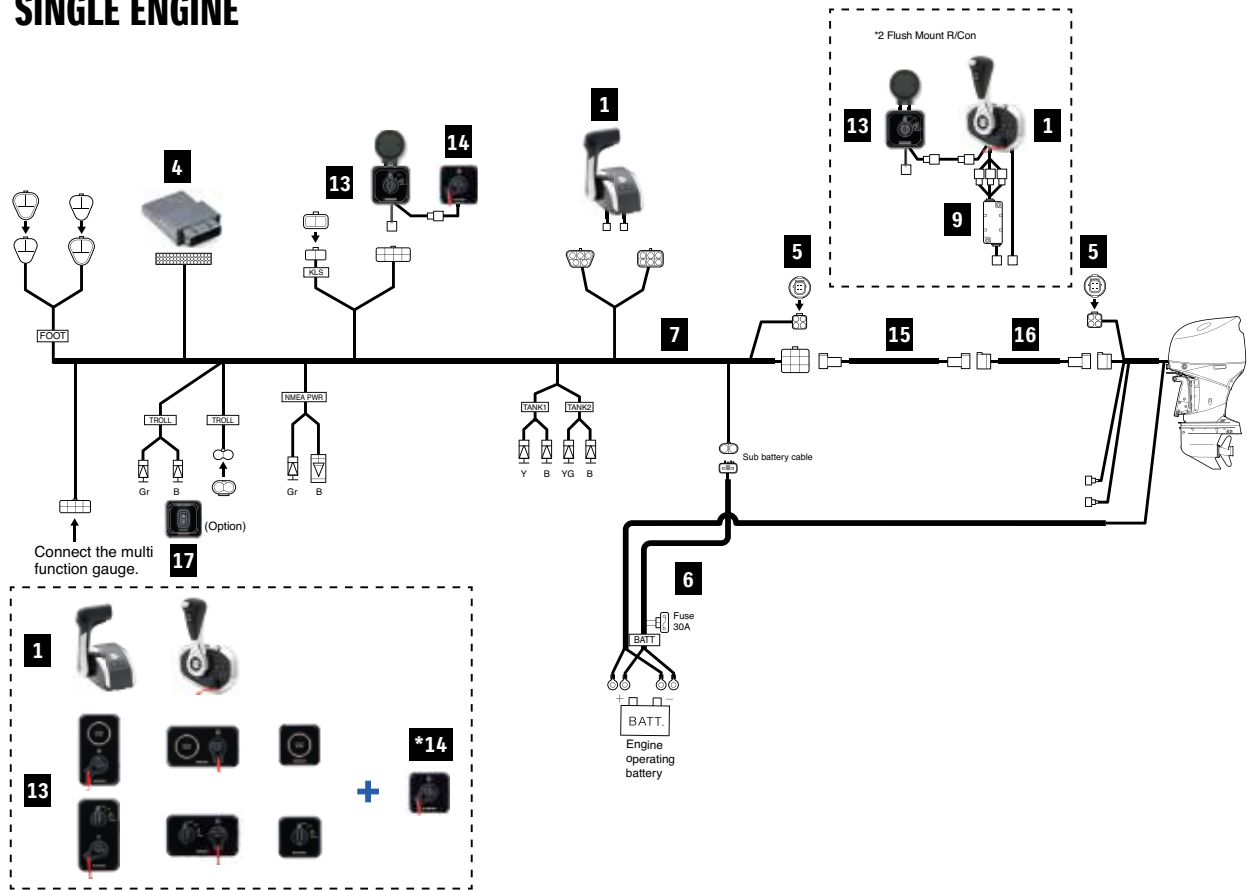

In multi-outboard installations on large boats, a counter-rotation outboard is usually paired with a regular rotation model to help keep the boat traveling on an even keel and in a straight line. AP Models are built with special counter-rotating gearing in the lower unit, which causes the prop to rotate in the opposite direction. Suzuki Selective Rotation eliminates the need to purchase a dedicated counter-rotation outboard by using a special switch that turns a regular rotation outboard into a counter-rotation model with a counter-rotational propeller. This industry-first is made possible through a unique design of gears, shaft, and bearings in the lower unit that are designed to which can operate reliably and efficiently in either both regular or counter-rotation directions.

**SUZUKI  
SELECTIVE ROTATION**

## 7 REMOTE-CONTROL ATTACHING KIT

Converts ME model to REMOTE-CONTROL model.

### 67101-97L00-000

Applicable Model DF4A-6A

### 67130-89L22-000

Applicable Model DF9.9B/15A/20A

### 67130-94L03-000

Applicable Model DF25A/30A

### 67130-94L13-000

Applicable Model DF25ATH/30ATH

### 67130-99J02-000

CLAMP BRACKET SET (41100-99J00-0EP) is required for installing 67130-99J02-000.

Applicable Model DF8A/9.9A

## 8 TWIN REMOTE-CONTROL ATTACHMENT KIT

### 67140-95601-000

Applicable Model DF9.9B-30A/100A-250

## CLAMP BRACKET SET

### 41100-99JL0-YAY

Applicable Model DF8A/9.9A

## 9 EMERGENCY SWITCH PANEL

### 37803-98L00-000

Applicable Model DF9.9B-350A

## 10 PTT SWITCH PANEL

### 37805-88L00-000

Applicable Model DF40A-250

## (a) TACHOMETER

### 34200-93J14-000

FACE : WHITE

## (b) TRIM GAUGE

### 34800-93J13-000

FACE : WHITE

# EXTRA OPTIONS

## TROLL MODE SWITCH PANEL

**37860-98L00-000**

Applicable Model DF40A-200A/  
150AP-300AP/  
300B/325A/350A

Activates SUZUKI Troll Mode System and controls RPM from idling engine speed up to 1200rpm at every 50rpm.

## SUZUKI TROLL MODE SYSTEM

### Troll Mode Switch:

An option on for Remote Control models from DF40A and over, this system allows the user to adjust engine speed in 50rpm increments, giving highly precise control at low revs. With its own tachometer and control switch, it works alongside our multi-function gauges and analogue gauges.

(Tiller Handle Models from DF40A and over have Suzuki Troll Mode System as standard equipment)

\*Not Applicable for DF250/225/200, DF250W, DF150W, DF90AWQH

## RIGGING TUBE

**990C0-20010-000**

Applicable Model DF70A-DF350A

\*Connect to the hose adapter equipped on the engine

# NEW KEYLESS START SYSTEM

## HIGH SECURITY

- The Suzuki Keyless Start System features an immobilizer function for added peace of mind. IC access codes installed in the key fob and engine must match for the engine to start, preventing any wrong key from starting the engine. It also means the engine will not start on any other boat, discouraging theft of the engine as well.

## EASY OPERATION

- The key fob is easy to carry and one is all you need to enjoy stress-free starts for greater boating pleasure. The System requires no mechanical key, so the key fob remains safely in your pocket. It is also waterproof and floats in case it accidentally falls into the water.  
2 key fobs are included as standard per system. Dealers can program up to 4 additional fobs to allow multiple users (total 6 fobs per boat)

Find out more by watching our videos

## NEW FEATURES

The new Keyless Start System introduces new features for better convenience of both users and dealers, while still providing high security

### New Design

New panel design in sleek black. Addition of Horizontal-type and Separate-type panels.

### One-push start/stop for multiple engines

All engines start in order with just one push (max 6 engines). No need to push the button multiple times.

### Easy Setup and Passcode entry (with SMG4 or SMD)

The new system has a menu selection for easy key fob registration. Also in case of emergency, users can start the engine by directly inputting the passcode into SMG4 or SMD.

# SUZUKI MULTI-FUNCTION GAUGE

The Suzuki Multi-function Gauge (SMG4) shows the right information, at the right time, all on one user-friendly screen.

Users can view a wide range of important information, including engine rpm, speed and trim angle, engine temp and fuel economy in 13 different measurement units, and total fuel flow for multiple engine installations.

The SMG4 also shows alerts from the engine's sensors and warning systems.

## ANALOGUE TACHO & SPEED MODE

\* Speed sensor or GPS module will be required to display Speed, Mileage, Trip distance, Time information.

## TACHO MODE

- Fuel flow (instantaneous)
- Mileage\* (instantaneous and average)
- Trip time, Trip distance\*
- Engine hour, Voltage, Water temp and more...

	GPS Module	Speed sensor
Speed	<input type="checkbox"/>	<input type="checkbox"/> (SOW)
Mileage	<input type="checkbox"/>	<input type="checkbox"/> (SOW)
Trip distance	<input type="checkbox"/>	<input type="checkbox"/> (SOW)
Time	<input type="checkbox"/>	N/A

(SOW): Speed over water

## TROLL MODE FUNCTION

- Allows you to control your troll mode from the Multi-Function Gauge

This function is available from year 2019 models. Can only be used by models which are adapted to troll mode.

# DISPLAY MODES

**DIGITAL TACHO & SPEED MODE**

**ANALOGUE SPEED MODE**

\*Night mode screen

**FUEL MODE**

# NEW FEATURES

The SMG4 has 3 key new features.

## Multilingual menu

SMG4 is now available in 13 languages: English, French, Italian, German, Spanish, Swedish, Norwegian, Finnish, Dutch, Portuguese, Danish, Russian, Japanese.

## Automatic Trim

Automatically adjusts trim angle with OBM RPM

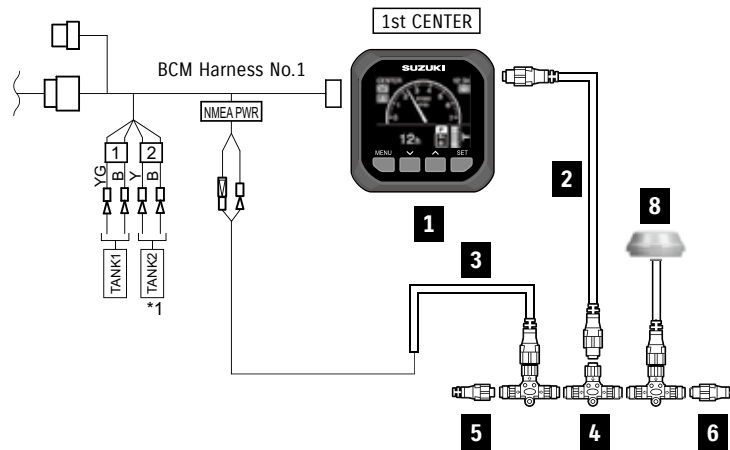

## Demo mode

Shows preinstalled data to demonstrate function of selected screen. (Ideal for boat shows and exhibitions)

# SUZUKI DIAGNOSTIC SYSTEM MOBILE

SDS Mobile works in tandem with our Multi-Function Gauge and Multi-Function Display. Simply download the App, available on iOS and Android, to your smartphone: you don't need a separate device. When you email your data scanned from QR code to the Dealer, they will be supplied of information including engine number, number of hours since the last oil change, total hours of operation at different rpm, and other technical information.

\*DENSO WEB owns the right of name and logo of QR code.

## HOW IT WORKS

1. The Outboard converts engine data into a QR code displayed on the Multi-Function Gauge or Multi-Function Display.
2. Customer can use their smart phone to scan the QR code with the SDS Mobile App. The engine data will be stored on their smart phone.
3. Customer can then send the engine data via email to your Suzuki Dealer.

DOWNLOAD THE APP FROM:

## TACHOMETER

White

Black

White

Black

White

Black

**34200-93J14-000** (White)

**34200-93J02-000** (Black)

Gauge Size 4" (101.6mm)

Applicable Model DF25A-250

Caution system alert with a monitor lamp lighting on when an abnormal engine condition occurs. Refer to SERVICE MANUAL for the detail.

**34200-93J53-000** (White)

**34200-93J42-000** (Black)

Gauge Size 4" (101.6mm)

Applicable Model DF40A-200A

Exclusive for SUZUKI TROLL Mode System. Automatically switches to low RPM scale when the SUZUKI Troll Mode System is activated.

**34200-93J34-000** (White)

**34200-93J22-000** (Black)

Gauge Size 4" (101.6mm)

Applicable Model DF8A-30A

Full-scale 7000-RPM TACHOMETER can be used on electric-start models by using 4, 6 or 12 pole switch on rear of meter.

## TRIM GAUGE

White

Black

**34800-93J13-000** (White)

**34800-93J02-000** (Black)

Gauge Size 2" (50.8mm)

Applicable Model DF25A-250

Magnetic-type gauge shows trim angle for optimum performance and efficiency.

## FUEL GAUGE

White

Black

**34300-93J13-000** (White)

**34300-93J02-000** (Black)

Gauge Size 2" (50.8mm)

FUEL GAUGE alone works with the US Standard 250Q sending unit.

## HOUR METER

White

Black

**34500-93J13-000** (White)

**34500-93J02-000** (Black)

Gauge Size 2" (50.8mm)

Applicable Model DF9.9B-250

12-Volt-electric-motor driven meter indicates hours that your SUZUKI OUTBOARD MOTOR has been operated in order for you to know when each periodic service is required.

**SPEEDOMETER**

White

(White)

**34100-93J13-000**

Gauge Size 4" (101.6mm)

Maximum Speed 130km/h, 80mph

Bourdon-tube type speedometer with readings in km/h and mph. Includes vinyl tube, hardware and installation manual.

Black

(Black)

**34100-93J02-000**

White

(White)

**34100-93J33-000**

Gauge Size 4" (101.6mm)

Maximum Speed 80km/h, 50mph

Bourdon-tube type speedometer with readings in km/h and mph. Includes vinyl tube, hardware and installation manual.

Black

(Black)

**34100-93J22-000**

White

(White)

**34100-93J53-000**

Gauge Size 4" (101.6mm)

Maximum Speed 80km/h, 45knots

Bourdon-tube type speedometer with readings in km/h and knots. Includes vinyl tube, hardware and installation manual.

Black

(Black)

**34100-93J42-000**

**34100-93J62-000**

Gauge Size 4" (101.6mm)

Background White

Maximum Speed 120km/h, 65knots

Bourdon-tube type speedometer with readings in km/h and knots. Includes vinyl tube, hardware and installation manual.

**SPEEDOMETER SENDER ASSY**

**34190-95500-000**

**34190-87D00-000**

**VOLTMETER**

White

Black

**34600-93J13-000** (White)

**34600-93J02-000** (Black)

Gauge Size 2" (50.8mm)

Applicable Model DF9.9B-250

To help your SUZUKI OUTBOARD MOTOR run at its best, monitor the charging system functioning with a VOLTMETER.

**WATER-PRESSURE GAUGE**

White

Black

**34650-93J33-000** (White)

**34650-93J22-000** (Black)

Gauge Size 2" (50.8mm)

Applicable Model DF40A-250

Bourdon-tube type gauge measures cooling-water pressure. Select an appropriate INSTALLATION KIT for each model.

**INSTALLATION KIT for WATER-PRESSURE GAUGE**

**34660-90J04-000**

Applicable Model DF40A-140A

**34660-96J01-000**

Applicable Model DF150-175/200A

**34660-93J02-000**

Applicable Model DF200-250

KIT includes fittings and hoses needed for motor to gauge connection.

# STEERING

## TILLER HANDLE KIT

### 63002-88L29-YAY

Applicable Model  
DF40A/50A

### 63002-88L17-YAY

# SUZUKI PROPELLERS

## WATERGRIP

\*This picture was taken remotely

### WATERGRIP

The WATERGRIP series will be the new standard for Suzuki propellers. The interchangeable square-shaped bush system is designed for quick and easy replacement when required, and also accurately and efficiently converts power from the engine to thrust through the propeller.

### WATERGRIP DUAL

Our flagship models, the DF350A, DF325A and DF300B, introduced the Suzuki Dual Prop System, an industry-leading technology, which delivers outstanding and exciting performance. The two contra-rotating propellers, operating simultaneously, enables greater conversion efficiency as well as better stability, grip, and manoeuvrability.

### WATERGRIP SPORT

The WATERGRIP SPORT propellers feature a high rake blade design for excellent acceleration and exceptional top speed. These propellers are ideal for lightweight sports boats as they give remarkably stable thrust when turning for superior manoeuvrability.

Model	Type	Material	Blade	Diameter		Pitch		Rotation*	Part number
				in	(mm)	in	(mm)

## THE NEW WATERGRIP RANGE

WATERGRIP is a stainless-steel propeller series offering accurate response to User operation. Converting engine power into propulsion with high efficiency, this propeller series meets our customer's demand for bigger, faster, more powerful outboards.

The WATERGRIP propeller series employs a new interchangeable and square shaped propeller bush that minimises power loss in delivery.

### PROPELLER BUSH ADVANTAGES

Better resistance over

propeller slip

Interchangeable bush

### Choosing The Right Propeller

Propeller selection is very important in the performance of the boat. Acceleration, speed, fuel efficiency, stability and engine RPM all are affected by the propeller. Operating requirements and conditions will also determine which design, style and pitch of the propeller your customer can choose. The combination of boat, engine and appropriate propeller size may have already been tested by the boat manufacturer.

**Your Customer may need your assistance to determine the correct propeller for their application.**

### Stainless Steel Propellers

Suzuki Stainless Steel Propellers offer high performance and durability. Their aggressive design enhances the overall performance of the boat and the durability of stainless steel ensures long term dependability. Suzuki Stainless Steel propellers are also fitted with a rubber cushion hub to help absorb vibration and shock should they strike a foreign object.

### Propeller Sizing

When referring to propeller size, the first number is the number of blades, the second number details the **diameter** of the propeller, and the third number is the **pitch**

Example: **3 x 13 x 18** = 3 blades x Diameter: 13 inches x Pitch: 18 inches.

The pitch is the most significant factor when choosing a propeller.

### Diameter

Diameter is the distance across an imaginary circle that is made when a propeller rotates. Diameter is determined during the the designing process of a propeller and is usually based on engine size, gear case design, horsepower and speed.

### Pitch

Pitch is the theoretical distance that a propeller corkscrews forward through the water. In theory, an 18" (457.2mm) pitch propeller would travel 18" (457.2mm) with each complete revolution\*.

Lower pitches accelerate faster, but have lower top end speed. Higher pitches have a slower acceleration, but attain higher top speeds. An inch of pitch is generally equal to 150-200 engine RPM at wide open throttle (WOT). If pitch increases by an inch, RPM will decrease by 150-200 RPM at WOT. If pitch decreases by an inch, RPM will increase by 150-200 RPM at WOT.

\*Note during actual operation, this number will be affected by slip factors such as water conditions, boat weight, propeller style, etc.

### Propeller Cup

Cup is the curve along the trailing edge of the propeller blade. This reduces propeller slip and ventilation, allowing users to operate their engine at a higher transom mounting, and use more trim for bow lift.

### Rake

Rake is the angle, in degrees, that the propeller blades are mounted to the barrel of the propeller. Blades of a zero degree rake propeller are mounted perpendicular to the barrel. High rake propellers have blades that angle more to the rear of the propeller. These blades hold water longer and ventilate less at higher engine heights.

Such propellers produce higher thrust which helps lift the bow of the boat more effectively.

50 grams (1.7 oz)

## FLUSH-HOSE ATTACHMENT

**55181-95200-000**

Applicable Model DF4A-6A/40A-60A

**17917-87L00-000**

Applicable Model DF8A-350A

## FLUSHING TOOLHMENT

**99000-81202-000**

FLUSHING TOOL

Applicable Model DF325A/350A

## BATTERY CHARGER

**990E0-OPTIM-CAR**

OptiMate 6, versatile battery charger, maintainer and tester. Recommended for STS/AGM/MF/GEL and spiral cell batteries from 15 Ah to 240 Ah.

## ZINC ANODE for saltwater

**55300-95500-000**

Applicable Model DF8A/9.9A/40A-60A

**55125-96310-000**

Applicable Model DF25/R/Q

**55321-90J01-000**

Applicable Model DF50AV/60AV/100A-140A

## ALUMINUM ANODE for brackish water, saltwater

**55321-87J01-000**

Applicable Model DF2.5-350A

**55320-94900-000**

Applicable Model DF60A-350A

**55321-95J00-000**

Applicable Model DF2.5,DF4A-6A

**55321-93J01-000**

Applicable Model DF70A-90A/100B/150-350A

## MAGNESIUM ANODE for freshwater

**55321-87J11-000**

Applicable Model DF4A-350A

**55321-94910-000**

Applicable Model DF70A-350A

## Anode Bulk Pack

**55321-87810-B50**

Applicable Model DF2.5-300AP

50pcs in one package

## ENGINE COVER

**99000-81700-000**

Applicable Model DF8A-20A

**99000-81730-000**

Applicable Model DF115BG/140BG, DF200T/Z-250T/Z

**99000-81710-000**

Applicable Model DF25A-60A

**99000-81740-000**

Applicable Model DF150A-200A/175AP/200AP/250AP/300AP

**99000-81720-000**

Applicable Model DF70A-140A

**99000-81750-000**

Applicable Model DF300B/325A/350A

# MAINTENANCE KIT

SUZUKI highly recommends you to replace your outboard motor with Maintenance Kits every 100 hours or 1 year, whichever comes first.

# THE ULTIMATE OUTBOARD MOTOR

Please read your Owner's Manual carefully. Remember, boating and alcohol or other drugs don't mix. Always wear a personal flotation device when boating. Please operate your outboard safely and responsibly.

Suzuki encourages you to operate your boat safely and with respect for the marine environment.

Specifications, appearances, equipment, colors, materials and other items of "SUZUKI" products shown in this catalog are subject to change by manufacturers at any time without notice and they may vary depending on local conditions or requirements. Some models are not available in some territories. Each model might be discontinued without notice. Please enquire at your local dealer for details of any such changes. Actual body color might differ from the colors in this brochure.
